

# Meeting and Working Bee

## Saturday 14 November 2015

Two meetings were held, first the Friends of Kurth Kiln November General meeting, then the 2016 Kurth Kiln Heritage Festival, scheduled for 17 April was discussed. Henriette, the new treasurer and festival coordinator, passed out proposed festival job allocations. Laurence who has applied for a Tall Astelia Recovery Grant from DELWP for propagation of approximately 1000 Tall Astelia brought a Tall

Astelia pot plant to show around. He was given 20 plants from Melbourne University, which he will plant in a suitable location as an experiment to see how they take on.

Tall Astelia

After the meeting Meredith and Laurence went to check the re-vegetation on the Scout Loop Track and discovered that a number of the wooden stakes securing the protective sleeving had

disappeared. They returned to the Kiln site and collected some more bamboo stakes and replaced the missing hardwood ones. Joe also offered to help.

Carmel, a wildlife carer, brought along a little wallaby she is at present looking after. Soon after she fed it members of the friends group wanted to cuddle the cute wallaby.

As set by Parks Victoria, the combined Friends Group Christmas Break-up will be held at Mortimers Reserve on Saturday 5 December. It will be the last meeting for the year.
