

Southern Ranges Environment Alliance meeting

Wednesday 5 August at Cockatoo Neighbourhood House

The Southern Ranges Environment Alliance (SREA) is an umbrella group that works to liaise between the many local volunteers, community groups, landholders and agencies that have given high priority to protecting environmental assets along the Puffing Billy corridor and adjacent areas of the Yarra Ranges and Cardinia.

Even though it was a very cold and rainy evening nine members attended the meeting. The evening commenced with groups relating what they are involved in. The Friends of Kurth Kiln mentioned the re-vegetation along the Camp Track with students from Cockatoo Primary and Hoddles Creek Primary Schools, the Seniors Event on 5 October and the Yarra Ranges Council 'Walking for Pleasure' grant application.

Glenn MacMillan SREA facilitator chairing the meeting

Merle's photo of the Group,

On the agenda were:

1. SREA update
2. Green Tracks Projects
3. New funding awarded
4. Green Army update
5. Forums
6. Facilitator Committee
7. Brainstorming

It was a very informative evening. Glenn showed interest in each group's report and was always ready to offer advice and assistance to the groups. We listened with interest to the many projects other groups are involved in.
