

Southern Ranges Environment Affiliation Meeting 6 May 2015 at the Puffing Billy Station in Gembrook

As the participants arrived they all were treated to pizza, coffee, tea, soft drinks and a glass of wine.

After the delicious snack the meeting was held in front of the lovely fire which Merle had prepared.

Like the other groups the Friends of Kurth Kiln were invited to discuss their projects and activities. The Kurth Kiln 2015 Heritage Festival was mentioned; completing the Melbourne Water re-vegetation grant and the Department of Environment, Land, Water and Planning at the Scout Loop between the new camping sites. Also mentioned was a proposed booklet about the Kurth Kiln Regional Park Walking Tracks.

Other items on the agenda were:

- SREA update
- Green Tracks Project
- New Funding Awarded
- New Grants
- Green Army update
- Forums
- Facilitator Committee
- Brainstorm - What you like from SREA and how could you contribute.

We loved the model of the Hilder Mill displayed at the Gembrook Puffing Billy Station
