

Storing Kurth Kiln Movable Heritage Artifacts in Parks Victoria's big shed.

Saturday 30 January 2016

The Friends of Kurth Kiln received a Parks Victoria grant to convert Annex 03 into a dedicated display room. On Tuesday 17 December 2013 all the items that used to be stored there were taken to Parks Victoria's big shed in order to fix the floor and construct display shelves. In the end there was not enough room in the reworked annex for all the items to be returned and many were left laying in the big shed.

On Saturday 30 January, Glen, Jan, Henriette, Joe, Tyrone, Alfred and Ursula set up shelving there and stored some of the excess items on them.
