

Swinburne TAFE Students doing Heritage work at Kurth Kiln

11 March 2015

Henriette, lecturer at Swinburne TAFE, brought her students to Kurth Kiln to do some heritage work. Early in the morning Henriette and Glen prepared the paint for the students painting the picket fence

surrounding the caretakers cottage.

After the students arrival Alfred spoke about the Kiln site, followed by the students looking at the kiln.

To increase the students knowledge of Bush-fire reduction burns Andy Musgrove, Parks Victoria Gembrook Ranger invited them to attend a Bush-fire

Fuel reduction meeting at the corner of Soldier Road and Gembrook Launching Place Road. Returning from the meeting the students painted the fence.

The Friends of Kurth Kiln thank Henriette for organising the excursion and the working bee at Kurth Kiln and the

TAFE students for their great work painting the fence.
