

# Yarra Junction U3A walk at Kurth Kiln

## Friday 7 September 2018

During the night and early morning it had rained heavily and a number of people decided to cancel. By the time the seven participants started off at Kurth Kiln the Sun started to shine, and shone on and off all morning.

We started on Beenak Road to Gembrook-Launching Place Road, then down to Shiprock Falls. Some of the participants had not been to Shiprock Falls and were fascinated by the size of the huge rock. After all the rain you could hear the Waterfall from afar. A morning tea stop was

held at the rock before heading back to Kurth Kiln. We walked via the Klink's driveway and paddock to the Thornton Track, where we looked at the information panels.
