

Knox U3A walk at Kurth Kiln

Wednesday 22 May 2019

On a beautiful sunny autumn day thirteen members from Knox U3A participated on the walk. The walk started off on Beenak Road to Shiprock Falls. Upon reaching the Dam we saw Melbourne Water eradicating, *Limnobium laevigatum*, Amazon Frogbit, floating aquatic weed. Kindly one of the Melbourne Water showed us the weed.

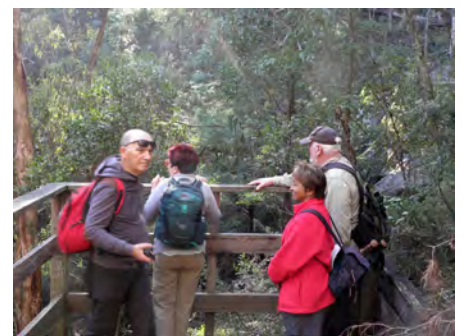

At Shiprock Falls we walked down to the Waterfall admired the huge rock and little groups could be found everywhere enjoying their morning tea.

Walking down to the viewing board

Admiring the Waterfall

Enjoying the view

Searching for a good spot

Finding a place for morning tea

Found a good spot in the sunshine
