

Mountain District Kurth Kiln Walk

Tuesday 27 August

After many days of rainy weather Tuesday 27 August was a perfect walking day. The ten participants started off at the start of the Thornton Track across the dam from the parking area. Crossing the bridge to Kurth Kiln Camping Ground we continued on Waterchannel Track.

On Waterchannel Track we talked to three ladies riding their horses, before crossing the Gembrook Launching Place Road.

We found a scenic spot for morning tea, overlooking the vineyards and a house being constructed. Refreshed we walked to the end of the track at Spencers Track.

We were surprised how low the water was in the dams, after all the rain.

We returned to Kurth Kiln via the Waterchannel Track to the Camping Ground then walked past the campers back to our cars.
