

Pakenham Walking Group Kurth Kiln Walk

Tuesday 12 March 2019

On an overcast morning 18 walkers joined in the walk. We started off from Kurth Kiln Track to Woodduck Track, and on reaching Tom's Track we walked down to

Soldiers Road. Some of us were getting warmer so we stopped to take off jackets. Walking to Gembrook Launching Place Road it started to drizzle and by the time we reached Tentpole Road (our morning tea break spot)

raincoats were put on and umbrellas protected heads. After morning tea we walked up Tentpole Road to Spencers Track. There one of our walkers could not find his car keys and decided to walk back to the morning tea stop, where he had last seen them. Walking a few metres back he suddenly remembered where he could have put them and rummaged again in his pack, and there located them. So we could all together continue on Spencers Tack and on Ash Track to walk to Soldiers Road. From there we walked back to Spencers Track and down to Waterchannel Track and our lunch break.

It turned out to be a short lunch break as it was becoming very cool and with the drizzle people became cold and were soon ready to continue the walk. One participant stopped on Waterchannel Track and pointed out the picturesque scenery.

Reaching the Kurth Kiln Camping Ground a decision was reached that we take the shortest way back to the Car Park to the cars and get warm again.
